A Certified Safety Professional, Kami's experience and training encompasses occupational health and safety compliance for industrial and agricultural facilities. She provides routine safety support for several facilities and is a safety trainer and course developer.

Besides supervising safety and industrial hygiene team members, Kami conducts safety walkthroughs and audits and works with several clients through iSi's EHS COOP program. In the EHS COOP, she conducts inspections, compliance tracking and annual reporting. Kami is experienced in developing and updating safety manuals and programs, including ISNetworld-compliant programs.

Prior to joining iSi, Kami worked as a Safety and Health Manager for Morton Salt and was also an online instructor for Hutchinson Community College. In these roles, she has gained immense knowledge of State, Federal, and Local Safety regulations which helps promote safety excellence in all her client's facilities.

Kami holds a masters in Safety Management from Murray State University and a bachelors degree in Occupational Safety and Health from Illinois State University.
