Mark Heidebrecht is the owner of ErgoMethods and is a managing partner of Ergonomics International. He has provided forensic and expert witness services in the areas of biomechanics, human factors, ergonomics, and work physiology. He has over 25 years experience working in the fields of ergonomics, biomechanics, human factors, and work physiology. He has testified in over 75 State Court and United States Federal Court cases as an expert witness and presented testimony at the Federal OSHA hearing regarding the National Ergonomic Standard.

Mr. Heidebrecht is certified by the Board of Certified Professional Ergonomists as a Certified Human Factors Professional and is certified by the American College of Sports Medicine as a Board-Certified Exercise Physiologist. He currently holds a U.S. patent for his epidemiology-based ergonomic risk and physical demand analysis software programs and has an additional patent-pending.

In 2000, Mr. Heidebrecht presented to the National Academy of Science in Washington D.C. regarding the effectiveness of ergonomic interventions and the early identification of musculoskeletal disorders and is listed as a contributor to the National Academy of Science publication, Musculoskeletal Disorders and the Workplace. Mr. Heidebrecht has presented throughout the United States, Europe, Canada, Australia, and New Zealand. Mr. Heidebrecht has developed and implanted ergonomic programs and processes across North America. He developed and implemented the Ergonomic Risk Reduction Process for the Customer Service Division of the United States Postal Service.
