Rayna Brown received her Bachelor of Science degree in Occupational Safety & Health [ABET Accredited] and a Master of Science Degree [ABET Accredited] in Industrial Hygiene from the University of Central Missouri. Rayna has worked in heavy civil construction, manufacturing, and the electrical utility sectors. In addition to her professional experience, Ms. Brown is double certified with both the CIH and CSP designations.

In addition to her work full-time in industry, Rayna works as an adjunct instructor at the University of Central Missouri teaching courses in Risk Management to graduate and undergraduate level students.

Rayna's professional interests include risk assessment, identification, and control within complex industrial environments. Rayna serves as President-elect in the local Mid-America AIHA, serves on the BCSP Emerging Professionals National Committee, and is an active member in the ASSP chapter within her region.
