Shelly came to KDOL in 2014, after spending 2 years as the Safety Director at a manufacturing company. Prior to that she spent 8 years with KDHE, working under the Bureau of Water and the Bureau of Air.

In her other life, Shelly spent over 20 years in the Ag Industry, primarily in Livestock Production. She says that all of these life experiences combined together have made her who she is today.

Shelly farms and ranches with her husband in western Kansas, what she refers to as her “real” job. Her newest favorite quote is, “Find out who you are and then do it on purpose”-Dolly Parton
