Mr. Russell has spent 5 years in the environmental, health and safety (EHS) industry. He graduated from the University of Central Missouri with a bachelor's degree in safety management in the spring of 2017.

His major responsibilities include providing industrial hygiene expertise to clients in regard to employee exposures in the workplace. Experience includes: mold assessments, Indoor Air Quality (IAQ) studies, and employee monitoring for noise and a wide variety of airborne contaminants.

He also assists clients with managing their nation wide programs related to safety and health.
