Brian Meek is the Director of Training and Safety at Kansas Municipal Utilities. Brian is responsible for the safety and technical training programs at the organization.

Brian has over twenty year's experience in the utility industry including time as the Director of Plant Operations for Minnesota Municipal Power Agency where he managed a 400 MW fleet of power generation units. Brian honed his safety skills while he was the Safety and Human Performance Manager for Xcel Energy's Prairie Island Nuclear Plant.

Brian holds a Master of Business Administration Degree, a Bachelor's degree in Nuclear Engineering Technology and is a veteran of the US Navy. Brian resides in McPherson, KS with his wife Beth and three children.
