

KEITH REISSIG

Project
Manager/Industrial
Hygienist

iSi Environmental

A project manager and industrial hygienist at iSi, Keith brings over 20 years of industrial hygiene experience to iSi and its clients. Keith is experienced in creating compliance programs, development and implementation of Health and Safety Plans, industrial hygiene testing, and training on a variety of topics in both industrial hygiene and safety.

As an Industrial Hygienist, Keith works with clients to monitor workplaces for chemicals and other contaminants they may be affected by. He makes sure clients are providing employees with the proper PPE and that they are working under the correct exposure limits. Keith also monitors for hearing conservation, combustible dust, and emergency response, as well as provide written programs and training.

Prior to joining iSi, Keith served as safety manager for the Coleman Company, EHS manager for Triumph, and a Senior IH at Textron Aviation. His knowledge of real life application of safety and IH in manufacturing has been useful for assisting clients with the compliance client's face in the aircraft industry.

Keith has a Bachelor in both Chemistry and Mathematics from Friends University.
