

DANIEL DEBOER

EHS Consultant

PROtect, LLC

Daniel DeBoer has been an environmental, health and safety consultant for PROtect, LLC (formerly ERI Solutions, Inc.) for the past seven years. His experience has included safety and environmental audits, safety program development and training, environmental reporting and PSM/RMP auditing and Process Hazard Analysis (PHA). DeBoer also has 16 years experience as an environmental, health and safety manager for several manufacturing sites in Kansas and Michigan. His professional experience includes 15 years as a petroleum geologist and five years as a newspaper editor and reporter. DeBoer obtained a master's degree in Environmental Studies from Friends University and a master's degree in Geology from Fort Hays State University. He holds bachelor degrees in Geology and Anthropology from the University of North Dakota. DeBoer is also an authorized OSHA outreach trainer, EHS management systems lead auditor (includes ISO 14001) and PHA team leader.
