

## CURTIS J. LEIKER

CSP

### Senior Project Manager

iSi Environmental

Curtis J. Leiker, CSP is a senior project manager at iSi Environmental, an environmental, health and safety consulting and industrial services firm. Besides assisting companies with ISO 45001 and 14001 audits and other OSHA and EPA compliance audits, Leiker manages environmental and safety programs, environmental reporting, safety and other compliance issues for aviation, general industry and agricultural facilities. While he is able to see the big picture, he focuses on the details and enjoys working to solve EHS issues. Leiker is an ISO 45001 and 14001 lead auditor. Additionally he is an instructor for iSi's RCRA hazardous waste training courses and is a main go-to expert for OSHA and EPA regulation interpretations. Prior to joining iSi Leiker directed corporate safety, environmental and ISO programs for manufacturing facilities and he led internal committees on program and procedure development. Leiker holds a bachelor's and a master's degree in Biological and Agricultural Engineering with an emphasis on Air Quality Engineering, and secondary majors in natural resources and environmental sciences, all from Kansas State University.
